Item 8.01 Other Events.

On January 29, 2020, Dr. George Scangos, President and Chief Executive Officer of Vir Biotechnology, Inc. (the “Company”), provided interviews with several news media outlets to discuss the Company’s efforts to develop a therapy for 2019-nCoV, also known as “Wuhan coronavirus”. In the interviews, Dr. Scangos discussed the timing of potentially developing a therapy and stated that the Company believes that it will know whether any of its current antibodies are effective against the Wuhan coronavirus in the next weeks to months. Dr. Scangos also disclosed that manufacturing would take an additional number of months, and that the expected process could total approximately 10 months, although actual timelines are difficult to predict. In addition, the Company is in discussions with manufacturers and regulators regarding expediting the manufacture and regulatory pathway for any potential therapy.

Forward-Looking Statements

This Current Report on Form 8-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as “may,” “will,” “expect,” “plan,” “anticipate,” “estimate,” “intend,” “potential” and similar expressions (as well as other words or expressions referencing future events, conditions or circumstances) are intended to identify forward-looking statements. These forward-looking statements are based on the Company’s expectations and assumptions as of the date of this Current Report. Each of these forward-looking statements involves risks and uncertainties. Actual results may differ materially from these forward-looking statements. Forward-looking statements contained in this Current Report include statements regarding the timing of development, manufacture and regulatory approval of a potential therapy to address the Wuhan coronavirus. Many factors may cause differences between current expectations and actual results including unexpected safety or efficacy data observed during preclinical or clinical studies, clinical site activation rates or clinical trial enrollment rates that are lower than expected, changes in expected or existing competition, difficulties identifying or entering into contracts with manufacturers, unexpected problems with the manufacturing process, regulatory delays and unexpected litigation or other disputes. Other factors that may cause actual results to differ from those expressed or implied in the forward-looking statements in this Current Report are discussed in the Company’s filings with the Securities and Exchange Commission, including the section titled “Risk Factors” contained therein. Except as required by law, the Company assumes no obligation to update any forward-looking statements contained herein to reflect any change in expectations, even as new information becomes available.
